

INFORMATION FOR PARTICIPANTS IN DIIS EVENTS

Dear participant in DIIS events.

When participating in DIIS events, photos and video will be taken, which DIIS publishes on various platforms such as Facebook, LinkedIn, diis.dk and can use in various marketing and information material.

Publication of a photo/video of you without consent will always be conditional on DIIS considering that:

- There must be a legitimate interest and a legitimate purpose for the publication
- The images must be harmless
- The images must not be portraits
- The persons in the image must not reasonably feel exploited, exposed or offended
- The persons who can be identified in the image/video must have the opportunity to object to publication

If you participate in a DIIS event, you can contact event@diis.dk if you wish to object to the publication of a photo/video recorded of you at the event. In connection with the objection, DIIS will endeavour to ensure that the photo/video recording is removed as soon as possible, unless this would entail unreasonable costs for DIIS.
